## Reading a Topographic Map

### Background Information

Topographic maps show the shape of Earth's surface by means of contour lines. Contour lines are lines that connect points that are at the same elevation above sea level.

### Observations

1. Identify each topographic feature on the map and write its corresponding letter:

- Cliff \_\_\_\_\_
- Rock quarry \_\_\_\_\_
- River \_\_\_\_\_
- Mountain peak \_\_\_\_\_
- Ocean \_\_\_\_\_
- Island \_\_\_\_\_
- Steep quarry wall \_\_\_\_\_
